

VFG-AC150H

AUTO CLEAN W/D HEPA VACUUM

Main features:

- Innovated Auto Clean System ensure the vacuum works at higher suction rate at all the time, clogging free, continuous use without interruption, saving time and labor significantly.
- Equipped with Dual HEPA filters, stops 99.97% of fine dusts at 0.3 μm
- Wet or Dry dust extraction.
- Up To 10 Gallon Injection Molding Tank Capacity provides massive storage room.
- Power outlet to intergrade hand power tool automatically on start / shut-down switch button.
- Industrial Grade Heavy Duty wheels and castors
- Retractable Cord for easy store & stack.
- Compact Strong accessories case and storage.

Model	VFG-AC150H
Voltage	1 phase, 120V 50/60Hz
Power	1.7 HP
Current	9 amp
Water lift(max)	92 inch
Airflow(max)	135 cfm
Auto clean	Yes
Filter quantity	2 pcs
Filter efficiency	HEPA, >99.5% @ 0.3um
Airflow adjustable	Yes
Power socket	10A
Power tool quick start	Yes
Remote control start	Optional
Dimension	15"X20"X22"
Tank volume	10Gal
Weight	29lbs

VFG-AC150H is a single motor wet or dry HEPA dust extractor with innovated auto clean system, Large size tank capacity and dual filters rotation self-cleaning to keep the highest suction rate all the time. The HEPA filter captures 99.97% of particles at 0.3 microns. It is a portable lightweight vacuum cleaner to extract liquids and dry fine dust in both, the vacuum will automatically shut down when reach the liquids maximum full level. Ideal for hand power tools that require continuous working period especially for extracting concrete dust in construction jobsite and workshop as well.

Tools Kit Included

1.38" EVA hose, 16.4ft

HEPA filter, 2PCS

1.38" plastic crevice tool, 1PC

Handle, 1PC

1.38" floor brush, 1PC

1.38" wand, 2PCS

Connection sleeve, 1PC
