

VFG - COMB20

HEPA Concrete Dust Extractor

- ✓ Three Ametek motors, for controlling the on/off independently.
- ✓ Continuous drop-down bagging system, easy and fast loading/unloading.
- ✓ 2 stage filtering, pre-filter is cyclone separator, Filtering more than 98% dust, make fewer dust to enter in vacuum cleaner, prolong the vacuums working time, to protect the filters in vacuum and extend the life time.
- ✓ Imported polyester fiber PTFE coated HEPA filter, low pressure loss, high filter efficiency.

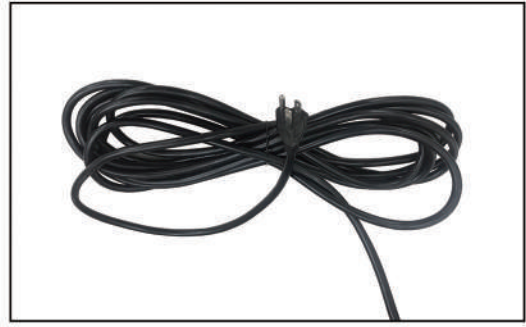

Model	VFG - COMB20
Voltage	110v,60hz
Power	3.4 hp
Current	18 amp
Water lift	72 inch
Airflow (max)	285 cfm
Filter cleaning	Jet pulse filter cleaning
Filter efficiency	>99.5% @0.3um
Filter area	32.29ft ²
Collection	Continuous folding bag
Dimension	25.7"X40.5"X57.5"
Weight	182 lbs

Featured details:

✓ 2.75 inch Aluminum die-casting inlet

✓ 27 ft UL certified power cord

✓ 1pc HEPA 11 conical filter with 32.29ft filter area

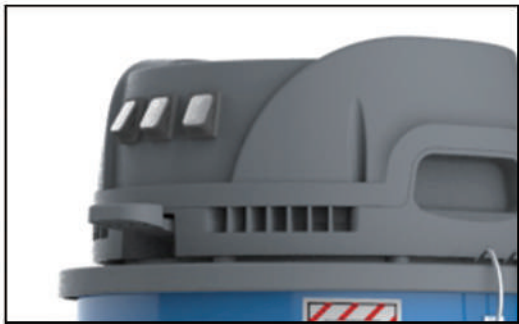

✓ The intergrated cyclone separator will vacuum about 98% fine dust before it come into the filter.
